INDUSTRIAL ERGONOMIC MATS

The following advantages can be scientifically proven:

- Reduction of muscular fatigue through increased muscle activation
- Reduction of joint and back problems due to shock damping effect

Industrial ergonomic mats provide added traction and the safety of a non-slip surface to minimise the potential for accidents in the workplace. Their resilience is proven to relieve the strain on the joints and the spine, and their skid resistance reduces the risk of falling.

Models: Basic, Fire, Oil, Clean and Drain.

STEEL TOE CAP

HALF MASKS

MOLDEX
Ideas that wear well™

Lightweight, low maintenance, the Series 8000 conforms comfortably to the contours of the face and provides a large field of vision.
